PROJECT & CONSTRUCTION MANAGEMENT

"Accuracy of detail - down to the last nut and bolt is paramount to the success of your project"

Project Management can be defined as the management of projects from feasibility through to design and detailing, then on to completion of construction.

The Project Management and Construction Management divisions are driven by a team of highly experienced professionals.

Your requirements are met by **INCODE's** key design and construction staff who combine to provide you with the most comprehensive, high quality level of expertise that can possibly be acquired from within one organisation.

INCODE Pty Ltd is able to provide your project with management, engineering and specialist services and expertise in other areas also - including:

- Site Investigations
- Cost Analysis
- Contract negotiations
- Authority planning building and other approvals
- Environmental Impact Studies
- Planning and Scheduling (CPA)
- Detailing (Fabrication and Construction)
- Operation/Engineering Plant Inspections
- Safety Audits and Risk Assessment Studies
- Procurement
- Legal Services (Litigation and Arbitration)
- Insurance and Loss investigations (causation/repair rehab studies)
- Plant and building maintenance/service commissioning.

There has never been or nor will there every be, a substitute to proper planning and detailing.

Incode Pty Ltd, proudly serving Australasian & International Clients since 1965.
