E.SECURITY = E.RECOVERY

INCODE has addressed the concerns in the business community about the increasing vulnerability of business processes and information systems. We can offer:

- Organisational and System Security, Policy and Procedure Development
- Disaster Recovery Planning
- Security Auditing
- Incident Handling and Response
- Intrusion Detection Systems
- Firewalls
- IT Forensics

“Do you have the best virus software available?”

Integrity is at the heart of the e-enterprise. We offer security consulting that you can trust, without vendor bias and without reseller kickbacks. Our security practitioners can aid with all enterprise security issues such as:

- Security Policy Designs and Implementation
- IDS & Firewall Configurations

“Could you do business if your email crashes?”

“Are you concerned about confidentiality in your emails?”

“Is your database hacker-proof?”

INCODE's networking practitioners have the experience to help increase the security and performance of your network. Our practitioners can aid in all networking issues including the following:

- High Level Network Design
- Detailed Network Trouble Shooting
- Network Monitoring

Incode Pty Ltd, proudly serving Australasian & International Clients since 1965.
